QA MANAGER | TEST MANAGER | QA STRATEGY

QA Manager with more than 20 years of experience leading software quality assurance initiatives across banking, fintech, retail, and government sectors.

Extensive experience managing multidisciplinary teams in high-complexity, mission-critical projects, with a strong focus on release stability, production risk reduction, and continuous quality improvement.

Successfully reduced production incidents by up to 98%, increased test coverage across critical business flows, and optimized delivery cycles in high-demand enterprise environments.

Skills

- Design and implementation of end-to-end QA strategies
- Leadership of QA teams in critical and multi-project environments
- Improvement of production stability and defect reduction
- Implementation of test automation and CI/CD practices
- Risk management, quality governance, and executive stakeholder management
- Optimization of delivery timelines without compromising quality

Keys competencies

QA Leadership & Strategy: QA Strategy & Governance, Test Management, Stakeholder Management, Risk & Release Management, Quality Assurance Process Improvement

Testing: Functional / Regression / Integration Testing, User Acceptance Testing (UAT), API Testing, Performance Testing

Automation & DevOps: Test Automation Strategy, CI/CD Integration. Agile / Scrum / Waterfall

Quality Engineering: Defect Lifecycle Management, QA Metrics & Reporting, Continuous Improvement

Tools

Project and Test Management: Jira, ALM / Quality Center, TFS

Automation: Selenium WebDriver, Cucumber

API Testing: Postman

Performance: JMeter, LoadRunner

Data Bases: SQL Server, Oracle, PostgreSQL, MySQL

Diagramming and Modeling: UML, Visio, Figma

Other: CI/CD, Linux, Android Studio, Xcode, Visual Studio Code

Professional experience

QA Manager

PACTO TECHNOLOGY MÉXICO – CDMX (Remote)

 Nov 2024 – Apr 2026

- Reduced production incidents by 98% through the implementation of a preventive QA strategy and enhanced validation processes.

- Increased functional test coverage by 100% in critical business workflows, improving release stability.
- Implemented automated testing integrated into CI/CD pipelines, reducing validation cycles and accelerating delivery timelines.
- Defined QA strategies for web applications, Android platforms, and POS systems.
- Implemented QA metrics dashboards to support executive decision-making.
- Led multidisciplinary teams under Agile/Scrum frameworks, aligning QA initiatives with business objectives.
- Managed the defect lifecycle for production releases, reducing operational risks.
- Identified critical risks and continuously optimized quality assurance processes.

Test Lead/Test Manager

Publicis Groupe, Ondore SAPI de CV, Scotiabank, HSBC, Deloitte (TSJF), Health Digital Systems, IBM, EDS and HP Company.

 **2007 – 2024**

- Led QA teams across simultaneous projects within financial, retail, and government sectors.
- Designed functional, regression, integration, performance, and volume testing strategies.
- Implemented test automation initiatives to improve efficiency and test coverage.
- Defined QA KPIs and executive-level reporting for stakeholders.
- Managed defects in critical production environments, ensuring release stability.
- Executed UAT processes and validated business requirements.
- Performed API testing and enterprise systems integration testing.
- Collaborated with UX/UI teams to improve end-user experience.
- Enhanced QA processes using Agile and Waterfall methodologies.

QA Analyst/Test Engineer Jr/QA Senior

SAT, CONAGUA, Nextel, Novartis, Softtek, Getronics

 **2003 – 2007**

- Designed and executed functional and regression test cases.
- Supported the initial implementation of test automation processes.
- Collaborated with development and business teams in requirements gathering activities.
- Executed testing for web-based and enterprise systems.

Education

Instituto Politécnico Nacional (IPN) – UPIICSA

Bachelor's Degree in Computer Science

2000 – 2004

Languages

English: Technical proficiency (reading, documentation, and professional communication)
